<http://www.step13.co.uk>

**“Step 13 are an all-consuming tidal wave of percussion and melody.... influences from around the globe come at you thick and fast, creating a heady stew that feeds both the mind and feet”**

- *KNOWLEDGE Magazine*

**“Ones to watch for 2010 ....”**

- *Electronic Beats Magazine*

More punch than **Pendulum**, more edge than **Reprezent**, **Step 13** are a leftfield dance act with bite...

With 2 killer vocalists: MC Ishu, originally brought to the UK by famous punk phlem fatale Ari Up to bring his exuberant, Jamaican raggamuffin style to her band **The Slits** in the late eighties; and Lucy Randell, a beautiful soul diva who has most recently laid down tracks with **The Streets** and on the forthcoming **Gorillaz'** album.

**Step 13** are “**Broc'n'roll**” Drum and Bass inspired beats gives you 100% live drums, floorshaking bass, acid guitar, epic keyboard riffery and synths like it's 1984, with songs which stick in your head long after your ears have stopped ringing.

The band have stormed venues throughout the country, playing a myriad of different events for rockers and ravers alike. They are a festivals staple having played at **Glastonbury**, Sunrise, Waveform, Boomtown Fair and many more, keep an eye out for them in a field near you this summer.

**Step 13 are unique and not to be missed.**
